

Requirements

- **Flight and Seat Management:**

- A flight may have multiple seats, but each seat can be reserved only once per flight.
- Customers can reserve specific seat preferences if available, but multiple attempts may be required for special requests.

- **Hotel and Room Management:**

- Each hotel can have multiple rooms, but each room can be booked by only one customer per date range.
- Non-refundable room reservations require full payment upon booking, and the customer cannot modify or cancel.

- **Car Rental Management:**

- Each car company offers multiple cars, but a car can only be booked by one customer per rental period.
- Cancellations on non-refundable car rentals are not allowed, and changes may incur additional charges.

- **Order and Payment:**

- Orders with multiple payments must be fully paid to confirm the reservation.
- Refunds are only processed for reservations that meet the cancellation criteria outlined (e.g., more than two days in advance for full refund eligibility)
- Customers can make partial or full payments depending on booking conditions.
- For certain non-refundable bookings, full payment must be made at the time of reservation.
